David Trubridge Collection

Scale References

To help you decide on the size and design of your David Trubridge light, please consider seeking out the AR (Augmented Reality) tools on our website. You can find the links just under the product selector dropdowns on each product page. Below are QR code links to our common sizes to get you started. Thanks!

AR Tool

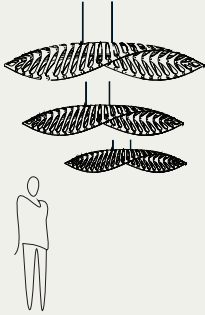

AR (Augmented Reality) is available for most of the David Trubridge range. Scan the QR codes below to start visualizing each design and the shadows.

Tips:

- AR works best during the day with good contrast.
 - Use two fingers together, to rotate lights.
- Start the process close to where you want the light.
 - Keep an eye on the scale, it should be 100%.

Limitations:

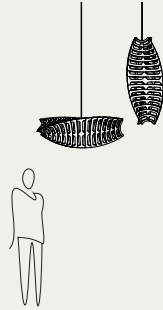

- Our models are set to about 2m (6ft) from the floor.
 - It may not work well to move the light higher into the space.
 - Some larger sizes are not included.
- Only Bamboo finish is viewable in AR. Colours may come soon!

Coral 600mm

Coral 600mm

Coral

Coral is a designer pendant inspired by nature and geometric polyhedra. Coral was David's first launched lighting design which has informed the basis of all of our lights since! Coral has won numerous awards around the world and to date it is still our most popular design, some consider it a design classic.

Seed System Kitset
Bamboo Plywood
Nylon Clips (400-1200)
Aluminium rivets (1600)
E26/E27 Lamp holder
2-5m (10-25ft USA) cordset
Stainless Suspensions (where necessary)

Model	Diameter	Height
CORAL 400	400mm (16")	400mm (16")

CORAL 800	800mm (31")	800mm (31")
CORAL 1000	1000mm (39")	1000mm (39")
CORAL 1200	1200mm (47")	1200mm (47")
CORAL 1600	1600mm (63")	1600mm (63")

Finish

 Bamboo	 Red	 White (1 Side) (2 Sides)
 Pink	 Blue	
 Orange	 Lime	 Black (1 Side) (2 Sides)
 Aqua		

Floral 600mm

Floral 600mm

Floral 800mm

Floral

Floral was the second production light to be launched (after Coral), following an exploration by David into softening Coral's 'geometric feel'. If you look at the central junction of five of the shapes - you can see a pattern of a flower emerge. Floral has more organic language than Coral, whilst keeping the same structured and fragmented skin.

Seed System Kitset
Bamboo Plywood
Nylon Clips (400-1200)
Aluminium rivets (1600)
E26/E27 Lamp holder
2-5m (10-25ft USA) cordset
Stainless Suspensions (where necessary)

 Pink	 Blue	
 Orange	 Lime	 Black (1 Side) (2 Sides)
 Aqua		

Flax 800mm

Flax 800mm

Flax 800mm

Flax

Flax Pendant is based on the long slender leaves of the indigenous flax plant or harakeke in Māori that has long been grown for its valuable fibre. There is a Māori proverb about preserving important resources: If you cut the central stalk of the flax bush, where will the bellbird feed?

Seed System Kitset
Bamboo Plywood
Nylon Clips
E26/E27 Lamp holder
2-5m (10ft USA) cordset

 Pink	 Blue	
 Orange	 Lime	 Black (1 Side) (2 Sides)
 Aqua		

Sola 800mm.

Sola 800mm.

Sola 800mm.

Sola

Based on the same geometry as Coral and Floral with more connection points, creating an intensely intricate pattern. Designed as part of our Icarus installation (shown in Milan) which is based on the Greek myth about the boy who flew too close to the Sun. Sola represents the Sun which will get too hot if you fly too high.

Seed System Kitset
Bamboo Plywood
Nylon Clips
E26/E27 Lamp holder
2-5m (10-15ft USA) cordset
Stainless Suspensions

Kōura Table Lamps.

Floral Table Lamp.

Coral Table Lamp.

Table Lamps

A powder-coated aluminium component which allows the fitting of our Coral 400mm/16", Kōura 500mm/20", and Floral 400mm/16" to a lamp base. The component is available in black and white options and comes with nylon fittings. These smaller lights make great table or bedside lamps, casting shadows against nearby walls.

Tūi

Tūi

Tūi . Tiger House, Havelock North.

Tūī

Tūī are the real characters of Aotearoa's native bush. They hurtle through the bush with drumming wing-beats, miraculously avoiding branches whilst maintaining their cool charm. Their song is like no other: a series of clicks, gurgles and resonant, bell-like notes...some off our hearing scale! They have two dangling white wattles on their throats and around their shoulders is a necklace of interwoven rings which is the inspiration of our Tūī light. Half rings of bamboo are woven into a basket form that would sit perfectly over a dining table, kitchen counter or equally hanging in a stairwell or entrance void.

Model	Diameter	Height
SMALL	400mm (16")	500mm (20")
MEDIUM	540mm (21")	680mm (27")
LARGE	760mm (30")	950mm (37")

Toru

Toru

Toru

Toru

Toru is inspired by microscopic diatoms which live in water and produce 50% of the air we breathe. Based on our award-winning Navicula feature light, it is crafted from strong, multi-layered bamboo plywood creating a natural skeletal skin. The light is designed to have functional downward lighting as it can be installed either horizontally or vertically. Toru is ideal for over a dining table, a lounge, a foyer, in a reception or as a corner statement piece.

Cloud Large.

Cloud Large.

Cloud

Cloud lights were first launched in 2008 as part of the Spiral Islands installation of matching lights and settees. This was inspired by the clouds that David saw sitting over small islands all over the Pacific Ocean, which were used by Polynesian navigators to find islands from afar.

Swell light.

Bounce light.

Roll light.

Ebb

The original design for the Ebb family came from the sketches of light-play on water ripples that David observed on his travels. Ebb is all about a directional arc that arrays around four different design forms. Ebb lights were first launched as fully assembled lamps made from plastic and wood components. In 2020 they were re-launched again and now the Ebb family of Swell, Drop, Roll and Bounce are made from ultra thin (0.7mm) Finnish birch plywood.
